

Societatea Sportivă Medicină și câteva din realizările sale

Gruparea sportivă a studenților Facultății de Medicină din București (S. S. Medicină) datează de mai multă vreme, însă organizarea ei temeinică de astăzi datează abia din Octombrie 1943. De la această dată, S. S. Medicină a activat pe toate tărâmurile sportive, fiind câștigătoare a 22 de cupe și a nenumărate plăchete și diplome.

Din această societate sportivă pur studențească fac parte ca membri de drept, toți studenții facultății, care pe lângă cursuri găsesc timpul necesar pentru a fi de folos.

În perioada de vreme din Octombrie 1943 și până astăzi echipele sportive ale facultății s-au activat numai în cadrul campionatelor universitare, și în competițiile organizate de federațiile de specialitate.

Iată mai jos o parte din realizările S. S. Medicinii în diferite ramuri sportive.
